

DECOMMISSIONING UW-FILTERING

NUCLEAR

GRADEL
www.gradel.lu

GRAMA, combined with
vacuum cleaner:

- craneless maintenance u. w. (filter, pump and pressure sensor)
- floating or fix installed
- very easy handling, low-maintenance
- huge flow
- best visibility in water
- flexible hose for sucking the particles at the location of process (cutting,...)
- Can be combined with any vac. cleaner
- Frequency controlled pump
- Optimised waste volume due to single handling of the filter cartridges
- Filter rate and material adapted to task
