

Internship as pre-sales engineer

Gradel develops turn-key special purpose machines (mechanical automated equipment) dedicated to nuclear, space and general industry for more than 50 years. GRADEL supports its customers all over the projects: from the definition of the specification up to the installation and operation of the equipment. This activity is in strong development.

We are looking for a student in mechanical engineering with following profile requirements:

- Master's internship
- Study with orientation on mechanical design
- Good knowledge in materials resistance and good skills in dimensioning
- Knowledge in hydraulic, pneumatic and electrotechnics is considered as an asset
- Knowledge of space applications is considered as an asset
- Proficient with solidworks (CAD and FEM calculation module) or another CAD software
- Practical approach, problem solving
- Organised and methodical
- Innovative and creative
- Ability to work independently, good team player
- Language skills: fluent in English/French or English/German (written and oral). A third language (French or German) is considered as an asset.

Key responsibilities:

- Pre-design of equipment
- Supporting the offer process
- Realisation of technical and offer documentation
- Developing components and functions cost data base
- Statistical analysis of purchasing cost
- Statistical analysis of manufacturing cost

We offer a position in an innovative and creative environment with strong relationships with customers and other departments of the company (Engineering, Supply-chain, Purchasing, Assembly). The trainee will be integrated in the sales team. This traineeship can lead to a recruitment. The position is based Ellange, Luxembourg.

If you are interested in taking this challenging opportunity and wish to take part actively to our future development, please send your application to job@gradel.lu (cover letter + CV).

Only shortlisted candidates will be contacted. The information you provide will be treated confidentially and will only be disclosed to employees involved in the recruitment process. The selected candidate will be requested to provide a criminal record.
