

Project buyer / Methods Technician (M/F) – Join us and shape the future of engineering

About Us

GRADEL is a high-tech engineering company delivering cutting-edge systems to the nuclear, space, aeronautics, and defence sectors. For over 50 years, we've been turning complex challenges into tailor-made, high-precision solutions that push technological boundaries. Innovation is in our DNA.

Your Role

To strengthen our Supply Chain department, we are recruiting a **Project Buyer / Methods Technician**. In this hybrid role, you will drive both strategic purchasing and industrial methods activities, playing a key part in ensuring that our high-tech systems are delivered efficiently, reliably, and to the highest engineering standards.

Key Responsibilities

- Manage project-related purchasing from sourcing to delivery
- Select and negotiate with suppliers and subcontractors
- Issue, track, and manage purchase orders
- Handle non-conformities and ensure corrective actions
- Define and optimize manufacturing processes
- Support continuous improvement across the supply chain and production activities

Your Profile

- Technical background (Bac+2 or equivalent) in manufacturing processes
- Minimum **3 years' experience** in technical industrial purchasing
- Strong interest in technical procurement and industrial processes
- Organized, methodical, autonomous, and solution-oriented
- Languages: **French & English** required; **German** is an asset
-

What We Offer

- A role in an **innovative, international, and fast-growing environment**
- Collaboration with multidisciplinary teams: Sales, Project Management, Engineering, Assembly, Quality, Finance
- Strong exposure to suppliers, partners, and technical stakeholders
- The opportunity to contribute to high-tech projects with real impact

How to Apply

If you are ready to take on this exciting challenge and actively contribute to our future development, please send your **CV and cover letter** to job@gradel.lu.

Only shortlisted candidates will be contacted. All information will be treated confidentially. The selected candidate will be required to provide a criminal record.
